**CALIFORNIA HOME HEALTH AGENCIES
STATEWIDE, 1993 - 2000**

Source: Annual Utilization Reports
of Home Health Agencies
and Hospices, 1993-2000

Definitions:

Principal Diagnosis	Are reported based on ICD-9-CM codes as established for the federal Healthcare Finance Administration (HCFA).
Unduplicated Number Of Patients	The number of patients visited, counted once , regardless of the number of visits made during the year. This number also includes patients visited that were carried-over from the previous year.
Unknown/Non Responders	This category was added to account for all agencies in the tables displaying total agencies "on the data base" as compared with the number of agencies "licensed at year end."

Notes:

Many hospice services began within licensed Home Health Agencies. Beginning in 1995, the separate licensure of freestanding Hospices began. Thus, licensed, freestanding hospices are not included in the Home Health Agency counts after 1994.
